
50 Shades of Green: Bringing Brown-Economy Transition Financing to the Capital Markets

Wednesday 3 October, 2018 | One Moorgate Place, London EC2R 6EA

08:30 Registration

09:00 Conference Chair's welcome and opening comments
Keith Mullin, Founder, **KM Capital Markets**

09:20 Keynote address: Getting to grips with the energy transition agenda
Jason Channell, Global Head of SRI Research, **Citigroup**

09:50 Presentation: Making sense of the investor response
Manuel Adamini, Head of Investor Engagement, **Climate Bonds Initiative**

10:20 Keith Mullin in conversation with...
Susana Meseguer, Director of Financing, **Repsol**

10:45 Break

11:15 Panel session: Super-charging Green Bond bang-for-buck

- » Are the 'wrong' issuers tapping the Green Bond market? Is the issuer skew undermining environmental potential and underplaying climate-change mitigation opportunities?
- » Should the sustainable capital markets be more supportive of transition agendas?
- » Green Bonds: maximising environmental impact or minimising funding costs?
- » Financing oil companies' operational efficiencies with green bonds? Problem?
- » What will it take to shift the centre of gravity of the GB ecosystem?
- » Exploring the EU Action Plan on sustainable finance. Towards formal green labelling?
- » All about impact measurement or it's all so much greenwash
- » The push towards additionality
- » How far have we come in the ESG/SRI/impact investing story in fixed-income?
- » Is sustainable investing a buy-side game-changer?
